

1. An article assembly comprising:

a) an article having a receivable end.

and

b) a stand in the shape of first and second feet,
each of said first and second feet being elongated
to define a toe end and together a common heel end,
said first and second feet being joined together and
positioned together to form a continuous bottom
supporting surface, said heel end of each of said
first and second feet being positioned together
to form a single heel portion, said single heel
portion including a recess extending through a
topside thereof and towards a sole thereof
for selectively receiving said receivable end
of said article therein, thereby retaining said
article when said stand is placed on a horizontal
surface, said first and second feet each including
a side surface, said side surfaces intersecting
one another in a common plane.
